

# Dirty Talk<sup>®</sup>

*Caution: Voice box is not waterproof.*

*Remove the voice box when  
deep cleaning to avoid  
damaging the speaker.*

**OVER 10 LBS. OF ASS!**

With a built-in headphone jack and one-touch volume controls, you decide how you want to enjoy your late-night listening party. Simply push the power button to turn the volume up and cycle through seven volume settings, then press it again to lower the volume and cycle through the seven lower tones.

Hold the power button down for three seconds and your new fuck friend greets you with a warm welcome greeting. When you're done with the fun, hold the button down again for three seconds and she signs off with a tempting goodbye message.

To charge, connect the included USB cord to the back of the voice-box and plug the other end into a compatible power source. Charge time is approximately 1.5 hours, run time is approximately 2 hours.

Restore your Fanta Flesh to its original softness and bring it back to life, making it feel just like it did the day you bought it. 100% pure cornstarch powder can be applied liberally all over your Fanta Flesh piece, including the insides of masturbators and sleeves.
