

Choose your lover and share the good vibrations! Edgar provides sensations specially directed at the clitoris, but can also be used for vaginal or anal insertion. Its smooth design, in 100% medical silicone, provides unparalleled pleasure and extreme comfort. Edgar works via remote control and both pleasure objects can vibrate simultaneously or separately.

You can activate Edgar anywhere, to comfortably enjoy the powerful, silent vibration. Designed to have fun alone, or as a couple, taking it to a whole new level.

From the tip to the base, it adapts rapidly and naturally to the temperature of your body.

- 100% super-smooth medical grade silicone
- Water resistant
- The Edgar Stimulator measures: 93 x 45mm
- The Edgar Egg measures: 75 x 33mm
- Weight: 112 Grams

- Phthalate free
- Unisex
- Synchronised remote control (both objects can vibrate at the same time, or separately)
- USB Rechargeable (cable included)
- Ergonomically correct
- Backlit control with LED lights

WORKING / USE:

Stimulator: To turn on the Edgar Stimulator, press the on/off button  for 2 seconds, and a red light will be activated. Press the  button to activate the vibrating mode, and then modify the vibrating modes by pressing the same button. Press the button  to activate the remote control for the Edgar Egg (both can vibrate simultaneously, at up to 5 metres distance). Once Edgar has finished, press the  button for 2 seconds and it will turn off.

Edgar Egg: To turn on the Edgar Egg, press the on/off button  for 2 seconds to activate the vibrating mode, then press the button  to activate the different vibrating modes. You can use the remote control via the Edgar Stimulator.

CHARGING

The vibrator is rechargeable which allows for easy handling, without any annoying cables.

Before using it for the first time, you should charge it completely. Use the USB cable included for this purpose.

Insert the USB cable plug into the charging connection hole . Plug into the power supply with a connector or a computer using the USB. A red light glows while the product is in charge mode. When charging is complete, the light goes out. Warning: the first charging process can take up to eight hours.

PROBLEM SOLVING

In the event of errors or handling difficulties related to the operation of Brad, press the power button for 5 seconds. If the product still does not work, contact service@amoressa.com.

DISPOSAL

The disposal of electronic devices must be carried out in accordance with the regulations for hazardous waste in force in the European Union and other European countries, or according to local regulations. Please follow the specific waste disposal regulations in your country and, if in doubt, ask your dealer about disposal options.

Opening a box of AMORESSA products is exclusive. Satisfaction is our goal, so we have taken care of every detail.
