

VACUUM PUMP Y.LOVE LOUISON

User manual

CONTROL

- 1) Press the middle button briefly to switch on the first extraction mode.
- 2) Short presses of the + or - button adjust the pressure force.
- 3) A short press of the top button with the A symbol starts the automatic mode, which itself changes the suction intensity in rhythms.
- 4) If you briefly press the middle button again, the pump switches off the suction, but the vacuum inside the cylinder remains.
- 5) Hold down the bottom button with the V symbol to activate the valve and release the vacuum.

WARNING:

It is very important that you should not use the pump through pain and for more than 30 minutes. Start pumping slowly and get to know your penis, how much blood it can hold. If you overdo it, you run the risk of damaging the corpus callosum, which can be fatal. Minor skin injuries or abrasions may also occur. After training for a while, you may be able to gradually increase the strength of the vacuum.

MAINTENANCE

After each use, rinse the product with lukewarm water and soapy detergent. You can also use an **erotic cleaner**, which also helps to remove microscopic dirt. Simply spray the product, leave it on for about 1 minute and then dry with a towel or cloth that does not leak fibers.

WATERPROOF

The product is **water resistant**, so maintenance is very easy. The product can be splashed with water, but you **MUST NOT immerse it in water!** Waterproof means that you could completely submerge the product in water and enjoy water play. Due only to the water resistance of the product, this is not possible in this case.

LUBRICATION

Use only **water-based lubricants**. Other lubricating gels could damage the surface of the aid and it could become sticky.

DRIVE AND CHARGING

The product is powered by an integrated Li-on battery, which is approximately half charged from the factory, but we recommend that you fully charge it before first use. Charge the battery using the included USB cable, which can be plugged into a phone adapter, PC or powerbank. When charging, the LED flashes and when fully charged, the LED control lights up permanently.

STORAGE

Store separately from other erotic aids in a dry and dark place.

PACKAGING CONTENTS

In the package you will find a vacuum pump and a USB cable for charging.
